TO ALL LOCAL LICENSING AUTHORITIES:

Your attention is respectfully directed to Regulation No. 20 of this Commission which reads as follows:

"Slot machines or any other devices which furnish anything besides merchandise of a quantity and quality commensurate with the price deposited therein are prohibited on licensed premises. Gambling of any sort, including the writing of so-called lottery, policy, clearing house or any other kind of pool slips or numbers, shall not be permitted on any licensed premises."

There appears to be a general misunderstanding or misconception concerning the proper interpretation of the provisions of this Regulation at least insofar as it pertains or has reference to the presence of "pin-ball" machines so-called in premises licensed to sell alcoholic beverages.

Such of these machines as are in and of themselves in nowise geared or operated as gaming implements do not come within the terms or scope of the regulation. In other words, their presence in alcoholic beverages licensed premises is neither prohibited nor permitted thereby.

In the opinion of the Commission, the Local Licensing Authorities of any city or town wherein the issuance of licenses for the sale of alcoholic beverages has been authorized, are fully empowered and are free under the provisions of the Liquor Control Act to prohibit or not to prohibit licensees for the sale of alcoholic beverages within their respective cities and towns from having such machines on their licensed premises.

TO ALL LOCAL LICENSING AUTHORITIES:

We have sent you under separate cover forms which you will kindly use when notifying us of your favorable action on such application for licenses for the sale of alcoholic beverages for the 1950 license year as your Board may approve. The yellow form is intended to be kept by you at all times for your files. The white and blue forms will be forwarded to this office. The white form will be returned to you following Commission action on the application.

In cases where you approve applications for Druggists' licenses under Section 30 A, you will kindly send us notice using the blue form only as such licenses are not subject to approval by the Commission although applications for transfers from one Druggist to another, in addition to any transfer of location of such a license, during the course of any license year are so subject.

In the case of a license approved for a corporation which will have its affairs managed during 1950 by some person other than the person who was designated and approved to act as manager for the current license year, you will kindly so state under "Remarks" where appearing in the upper half of the form. This should also be done where there is any change in the description of the premises presently licensed.

Assuring you of our appreciation for your co-operation in sending us notice of your favorable action on applications at your very earliest opportunity, we are

Gentlemen:

In accordance with your request concerning a license to permit dancing in Giombetti's Restaurant, I have checked the statutes and find that Section 183A of Chapter 140 provides in substance that no common victualler or person owning a restaurant shall, as part of his business, carry on a dance at which food or drink or other refreshment is sold for cash unless and until the license therefor to be exercised on weekdays only, has been issued by the licensing authorities who may on written application and on such terms as they may prescribe, grant such a license for the purpose, and may, after written notice to the licensee suspend, or after hearing, revoke the same. The license must specify the street and number where the licensed business is to be carried on and expires on December 31st. The fee for the license or renewal shall not exceed \$5. The statute then says that there will be no fee if the licensee is licensed under Section 2 which relates to innkeepers and common victuallers.

I do not know exactly what the last provision means as there is no doubt that Giombett would require such a license even though he is licensed as a common victualler. Section 183A provides a fine of not more than \$1,000 or imprisonment for not more than one year or both for anyone who does such business without such license or if he has such license and violates the conditions of it.

I could find no other statutes relating to the subject and since I had always understood that the license of this kind cost considerable money, I talked with Mr. Riley of the ABC and he told me that all such licenses are granted under the provisions of Section 183A of Chapter 140, the above statute. I then talked with Mr. Dine and he told me the same thing. I asked him if there was any tax provision providing for such license and he said that there was *not*.

I trust this is the information you desire.

Very truly yours,

Alfred W. Howes

Provisions of Section 17 of Chapter 138 of the General Laws as amended (The Liquor Control Act) with reference to the issuance of Seasonal licenses for the sale of alcoholic beverages.

The local licensing authorities of any city or town, except the city of Boston, may make an estimate prior to March first in any year of any temporary increased resident population in such city or town as of July tenth following, and one additional license under section twelve, to be effective from April first to November thirtieth only, may be granted by said authorities for each unit of one thousand or additional fraction thereof of such population as so estimated, and one additional license under section fifteen, to be effective from April first to November thirtieth only, may be so granted for each unit of five thousand or additional fraction thereof, of such population as so estimated; and provided, further, that said authorities may grant, in addition and irrespective of any limitation of number of licenses contained in this section, seasonal licenses under section twelve to duly incorporated clubs in their city or town if deemed by them to be in the public interest. Every estimate hereunder of temporary resident population shall be made and voted upon by the local licensing authorities at a meeting of said authorities called for the purpose after due notice to each of the members thereof of the time, place and purpose of said meeting and after investigation and ascertainment by them of all the facts and after co-operative discussion and deliberation. A copy of such an estimate, signed by a majority of the members of said authorities, stating under the penalties of perjury that all the foregoing requirements have been complied with and that the estimate is true to the best of their knowledge and belief, shall be forwarded forthwith to the commission. Upon the petition of twenty-five persons who are taxpayers of the city or town in which a seasonal license has been so granted, or who are registered voters in the voting precinct or district wherein the licensed premises are situated, filed within five days after the granting of such license, the commission shall, and upon its own initiative at any time may, after a hearing, examine and review any estimate made or action taken by the local licensing authorities in granting the same, and after such examination or review, may rescind, revoke, cancel, modify or suspend any such estimate or action. Nothing in this paragraph shall be deemed to authorize or permit the commission to deny a renewal of, or to rescind, revoke or cancel, because of a decrease in population, any seasonal license outstanding and in full force on April thirtieth, nineteen hundred and forty-six.

TO ALL LOCAL LICENSING AUTHORITIES:

Attached hereto is a mimeographed copy of correspondence which we have had with the Federal Bureau of the Census which is self-explanatory.

You will note that "Final figures (of population) for cities and other areas within states will not be available until further processing of the returns has been completed next year."

This fact, of course, eliminates the possibility of any additional licenses for the sale of alcoholic beverages becoming available for issuance due to the taking of the Federal Census during the current license year.

You will also note the statement that "A copy of the final release for counties, cities and towns in Massachusetts will be mailed to you as soon as available." At whatever time next year this information is received, we will immediately thereupon notify the Local Licensing Authorities of each of the cities and towns in the Commonwealth wherein the granting of licenses for the sale of alcoholic beverages is authorized of their respective figure of population as officially determined.
